

Black

Finally, a speaker series that provides high-end sound quality at an affordable price. The **XTC** slim line series will please music and film buffs alike with its brilliant range, from classical music to rock and from quiet dialog to big special effects.

Both three-way bass reflex towers feature multiple, 5.25" or 6.5", magnetically shielded rubber suspended woofers, mid-range drivers and 1" overload protected silk dome tweeters. This speaker design is masterfully controlled by an elaborate crossover system to deliver well-balanced sound.

Two 2-way bookshelf models complement the towers by acting as either rear or stand-alone speakers, while the **XC40** center channel naturally balances the act.

**SLIM AND STYLISH:**  
A slim profile and high gloss front baffle are signatures of this attractive series.

**X150**

**X150**

**X100**

Slim glossy front baffle

**XC40**
