

wood + metal + glass

S51V49N

Shown with **optional** 173PE-N tilt and swivel pedestal bracket

S51V40M

S51 SERIES - AUDIO/VIDEO

This modern wood and black glass design features a smaller top shelf above two full sized lower shelves to create the illusion that the TV is hovering above the rest of the equipment. The elegant curved wood front frame is available in a medium brown (M) or black gloss (N) finish. As an added bonus the S51 series can accommodate the 173PE-N pedestal bracket that features a convenient tilt and swivel function.
