

metal - telescopic speaker stands

TLS1 TELESCOPIC LOUDSPEAKER STAND

The TLS1 adjustable, telescopic system sets the speaker at the perfect listening height every time. A universal speaker mounting screw set is supplied with the stands to accommodate satellite speakers. Adjustable from 30" to 45" (76-114 cm), the elegant TLS1 is compact, very stable and available in black.

TLS3 TELESCOPIC LOUDSPEAKER STAND

The TLS3, with its unique horizontal or vertical mounting plate, will accommodate almost any small to medium-sized loudspeaker. Adjustable in height from 26" to 47.5" (66-120 cm), it features a convenient cable concealment system located inside the center post. The TLS3 is supplied with adjustable spikes, and the hollow, low-profile base can be sand-filled for increased stability. Available in black.

TLS1 and TLS3 available in Black (add suffix 'N')
