

BME01/CWT

High-end audio/video furniture

LIVCON is pleased to introduce the BME01 Bluetooth headset. Clear two-way audio communication, comfort and ease of use make the BME01 a natural choice. The set is supplied with an AC home charger and an optional and convenient DC car charger permits you to charge "on-the-go".

BME01

Features Points:

- Comfortable to wear on either ear
- Single button call/answer
- Easy button accessibility
- Clear two-way transmission
- Long battery life
- AC charger included

BME-CH
Optional Car Charger

The LIVCON CWT car FM wireless transmitter connects portable audio equipment to any FM radio without need for a car CD or cassette deck. Simply connect one plug to the lighter socket and the other to the portable device headphone output. Tune car radio to one of the four frequency options that gives you the clearest performance. Adjust the volume on the portable unit and then on the car stereo system. Enjoy the great sound of your portable music or DVD through the car stereo System.

Features Points:

- Easy to set up
- No messy wires
- High quality audio signal
- Choice of four channel frequencies
