

PP12TVL

MAESTRO POWER BARS

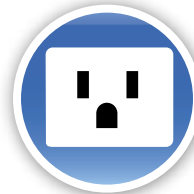

Maestro is pleased to announce the addition of new power bars to the very popular POWER PRO series. Three full featured power bars with 10 foot power cords and a wireless wall tap add choice and versatility to the line. To ensure performance and security, each model features both EMI/RFI filtration and transient voltage surge protection.

3500 Joules

PP12TVL

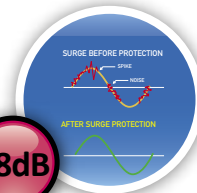

The PP12TVL is a **12 outlet power bar** that easily accommodates 6 large adaptors. A 58 db EMI/RFI noise filter and 3500 joules of protection help deliver clean power and protection to your equipment. This model also features 2.4 GHz coaxial connections with DC pass for satellite receivers, phone and data/Lan connections for networks or ADSL and a 10 foot cord with a convenient 90 degree plug head.
